

Student Questionnaire: Grades 6-12

Student name Griffin Grade applying for 7th
 Current school Cornerstone Elementary
 Student e-mail 1

In your own words and handwriting, please complete these four short essays. In the first essay, please answer both questions.

- What subjects in school interest you the most?
- What are your interests outside of school, and what is your level of involvement?

I Like Math, because its challenging and when I finish a hard problem I feel like I accomplished a big thing. I Like science because I love doing cool experiments. And I like english because I feel like im in a different world.

I Like Reading and I read at least an hour and a half a day. And I like it for the same reasons as English. I Like playing games with family because its super fun. I Like video games and I do them for at least an hour and 15 minutes a day. I also like circus and piano and if there wasnt covid-19 I'd do circus once a week

How would your friends describe you?

I think they would
say I help with math
and am kind to all there
say I'm a good speller and
also like to brainstorm random
ideas. And then write lots of
st uff about it.

What book have you enjoyed reading this past year, and why did you like it?

I've liked reading I am
number 4 because its very
fantasy but also its suspenseful
and action packed. I liked
Eragon because I love that
type of book. AND there's two
of three more books!!

Please add anything else you would like us to know about you.

I absolutely LOVE going to the
cabin. Its a small place up north
past Duluth and is right next to
a beautiful lake. In the summer
its just right for swimming
and kayaking and for in the
winter is good for skiing. We
also have an outhouse we use instead of a toilet
and no wi-fi, but we usually don't need
I don't have one yet Griffin
